

COBRAFRAME 18 KN HYBRID

45mm 25mm

Art.no.: FA4525CF-K+L

The HYBRID COBRAFRAME 18 kN thread back buckle made of aluminium with stainless-steel adjuster bar in the standard version complies with the ANSI Z359.12-2019 standard and convinces with a guaranteed tensile strength of 15 kN. However, in combination with the right webbing, we guarantee 18 kN and point this out in the technical specifications accordingly.

The HYBRID COBRAFRAME is specifically made for systems with different webbing widths, such as tree climbing harnesses. This version has a slot for 45 mm webbing including an adjuster bar for individual adjustment of the webbing length and another one for 25 mm webbing where the webbing needs to be sewn in.

use cases:

PPE, Fashion, air sports, tactical, equipment

Technical specifications

BODY	Material: aluminium Color: black Finish: ktl-coated
BAR	Material: stainless steel Color: colorless Finish: polished
BREAKING LOAD TENSILE STRENGTH	18 kN
WEIGHT	48 g
RECOMM. WEBBING WIDTH	45 mm
OUTER DIMENSION LENGTH	41 mm
OUTER DIMENSION WIDTH	58 mm
OUTER DIMENSION DEPTH	12 mm

COUNTRY OF ORIGIN	Austria
 Patented	
STANDARDS	ANSI/ASSE Z359.12-2019, CSA Z259.12-2016 Class II
 A black plastic carabiner with a silver metal gate. The top of the carabiner is labeled "COBRA®". Below this, it reads "ANSI Z359.12-2019 FA 45/25" and "CF Ser. Nr.". On the right side, there is a "15 kN" rating with a double-headed arrow. At the bottom, it says "AUSTRIALPIN MOD. DEP." with a small mountain icon to the left.
