

## CHALKER

### LIQUID CHALK

**250 ml bottle**

Art.no.: RT25LC

Liquid chalk, quick-drying and yielding in the convenient 250 ml bottle for frequent climbers.

With an alcohol component of more than 70%, our LIQUID CHALKER has a disinfecting effect and is still absolutely skin-friendly. In addition, liquid chalk reduces the fine dust in indoor areas, which makes it perfect for climbing in the climbing gym.

Ingredients: Magnesium carbonate, Alcohol, Thickener, Rosin

UFI: D0AR-QP00-5C9M-XRTR

The 16-digit "Unique Formula Identifier" number enables the responsible authority (doctor, poison control centre) to determine the contents in the event of a toxicological or allergic reaction.

#### use cases:

bouldering, sports climbing
