

## MAR.WIN

### WOODEN CLIMBING BRUSH WITH NATURAL BRISTLES

**15,5 x 1,5 cm**

Art.no.: ZU01BB

Bouldering and climbing brush with wooden handle and natural, perfectly cleaning pig bristles. For clean holds on the rock and in the gym. 100% made in Austria.

The wood used for the handle is almost exclusively obtained from waste wood of copper beeches and maple trees from Austria. Normally, such small wooden components are used as firewood. At AUSTRIALPIN, however, we make boulder brushes out of them, which makes this brush an absolutely sustainable product.

#### use cases:

bouldering, sports climbing
